ABOUT

I'm a highly motivated individual who is always eager to explore new technologies and continuously learn, so I can optimize my code even further. I believe that efficient architecture, clean coding standards, and modern programming practices are essential for writing code that is robust, maintainable, scalable, and easily testable

Technical Skills

Front End: HTML, CSS, JavaScript, jQuery, Responsive Design, Bootstrap, Tailwind CSS, React

Back End: PHP, Laravel, RESTful APIs, MVC Architecture, OOP

Database: MySQL

Version Control: Git, GitHub

Projects

Zukuta – Online Marketplace

<https://zukuta.com>

Built a Laravel-based multi-vendor online marketplace with secure payment gateways, vendor/product management, and user authentication.

Rosemay Hotels – File Access Portal

<https://files.rosemayhotels.com/public>

Created a secure file management dashboard to allow authorized users to access and download hotel-related documents.

Bohra Calendar Plus –Dashboard & Content Management

<https://www.bohracalendarplus.com>

Developed a Hijri calendar dashboard for uploading Quran PDFs, managing prayer times, and other religious resources.

ReadPro – Reading Platform Dashboard

<https://dashboard.readpro.app>

Built an admin dashboard with Laravel and Firebase Firestore to manage books, daily highlights, and users for a connected mobile reading app.

Piffers Security – Admin Dashboard

<https://software.piffers.net>

Developed a full-featured security service dashboard handling guards, clients, branches, and service management for a physical security company.

Piffers SOS – Emergency Security App (Admin)

<https://sos.piffers.net>

Created the backend and dashboard interface for a mobile-connected emergency alert app used by guards and security staff in the field.

Grape Games – HRM System

<https://grapegames.net>

Developed an internal HRM system for a software company to manage employee attendance, leaves, payroll, and performance tracking

Work Experience

January 2025- Present

Senior Web Developer | Funtash Technologies

At Funtash Technologies, I develop and maintain secure, responsive, and scalable web applications. I work on API integrations, optimize performance, and ensure smooth user experiences for corporate platforms.

Mid-Senior Web Developer | Maxcore Technologies

February 2023 – December 2024

I am an experienced Laravel Web Developer with a focus on backend development, bringing a strategic approach to managing projects and delivering high-impact solutions. I customize applications to meet your unique requirements, ensuring they are scalable, secure, and maintainable. I build and integrate APIs that streamline communication between systems and enhance overall performance.

Frontend Developer | AzSoft

May 2022 – January 2023

I am an experienced Frontend Developer with a strong background in managing key accounts within the technology sector, focusing on strategic planning and media relations, and proficient in HTML/CSS, Bootstrap JavaScript frameworks (React), and API integration. Specialize in creating user-friendly and visually appealing interfaces using modern web technologies.
