ABOUT

I'm a highly motivated individual who is always eager to explore new technologies and continuously learn, so I can optimize my code even further. I believe that efficient architecture, clean coding standards, and modern programming practices are essential for writing code that is robust, maintainable, scalable, and easily testable

EXPERIENCED

Frontend Developer | AzSoft | May 2022 – January 2023

I am an experienced Frontend Developer with a strong background in managing key accounts within the technology sector, focusing on strategic planning and media relations, and proficient in HTML/CSS, Bootstrap JavaScript frameworks (React), and API integration.

- Specialize in creating user-friendly and visually appealing interfaces using modern web technologies.
- Ensure seamless user experiences by combining technical expertise with design aesthetics.
- Align client objectives with innovative design and development strategies.

Mid-Senior Web Developer | Maxcore Technologies | February 2023 – November 2024

I am an experienced Laravel Web Developer with a focus on backend development, bringing a strategic approach to managing projects and delivering high-impact solutions.

- I customize applications to meet your unique requirements, ensuring they are scalable, secure, and maintainable.
- I build and integrate APIs that streamline communication between systems and enhance overall performance.
- I specialize in creating custom websites, offering responsive designs and smooth functionality.

Senior Web Developer | Funtash Technologies | December 01 – Present

At Funtash Technologies, I develop and maintain secure, responsive, and scalable web applications. I work on API integrations, optimize performance, and ensure smooth user experiences for corporate platforms.
